

Investment Prospectus: The Intent-Based Finance (IBF) Stack

Date: April 2026

Portfolio Lead: John Kelly

Contact: ceall06@proton.me

I. Executive Summary

The global financial landscape is transitioning from **Instruction-Based Architecture** (telling a system *how* to pay) to **Intent-Based Infrastructure** (specifying *what* outcome is desired). As AI agents begin to manage corporate and personal budgets, they require a new protocol layer. This portfolio, curated by John Kelly, represents the "Category Killer" namespace for this multi-billion dollar shift in **Agentic Commerce**.

II. Asset Theses & Market Categories

Asset	Category	Thesis
IntentPayments.com	Core Fintech	The flagship domain for the autonomous economy. As LLMs manage budgets, they require "Intent-Based" rails. This is the primary brand for processors (Stripe, Adyen) moving toward agentic settlement.
IntentCheckout.com	E-commerce	Focuses on the "Last Mile" of commerce. Replaces traditional shopping carts with AI-curated checkouts where the "intent" to purchase is verified and executed seamlessly.
IntentTransfer.com	DeFi/Web3	The primary brand for the "Solver" economy. In DeFi, "Solvers" execute complex value transfers based on the user's desired outcome, bypassing manual bridge and gas complexities.

IntentAuthorization.com	Cybersecurity	The "Security Guard" of the AI era. It represents the protocol layer where an AI agent proves it has the human's "intent" or legal permission to access funds.
IntentValidation.com	RegTech	The auditing and compliance pillar. It ensures that the action taken by an AI agent matches the user's original intent, providing a "Safe Harbor" for corporate accountability.

III. Acquisition & Lease-to-Own (LTO) Options

All transactions are secured via Escrow.com or a specialized Domain Holding Service.

The "IBF Stack" Bundle Deal: Purchase all 5 domains for **\$395,000** (a \$70,000 savings).

Domain Name	Buy-It-Now	24-Month Lease	60-Month Lease
IntentPayments.com	\$185,000	\$8,500/mo	\$3,700/mo
IntentCheckout.com	\$85,000	\$3,900/mo	\$1,700/mo
IntentTransfer.com	\$75,000	\$3,400/mo	\$1,500/mo
IntentAuthorization.com	\$65,000	\$2,900/mo	\$1,300/mo
IntentValidation.com	\$55,000	\$2,500/mo	\$1,100/mo

IV. Legal Safe Harbor & Terms

- **Intellectual Property:** All domains are generic/descriptive in the context of emerging Intent-Based Networking (IBN) technologies. Acquisition does not grant trademark rights to the term "Intent" outside of the specific domain usage.
- **Ownership Reversion:** Legal title remains with **John Kelly** until the final payment is cleared. In the event of a payment default exceeding 10 business days, the domain shall immediately revert to the Lessor.
- **Usage Compliance:** Lessee shall not use the domain for illegal activities, spam, or any use that disparages the brand value of the asset.
- **No-Lien Clause:** Lessee may not use the domain name as collateral for any debt or encumber the asset with any liens during the term of the lease.

V. Inquiry Instructions

For formal offers, acquisition inquiries, or to initiate a lease agreement, please contact **John Kelly** at ceall06@proton.me or submit an inquiry via the portal at **IntentPayments.com**.
